EXPERIENCE

Co-founder & Architect — Creative Flow Studio

DURANGO, CO / 2026-PRESENT

Boutique creative agency building brands, websites, content, and AI systems. I handle strategy, web development, operations, and client education; my partner Wes handles photography, videography, design, and creative direction.

- Generated \$150,000+ in client revenue across studio engagements.
- Shipped Shopify and Next.js builds for Reins Western Goods, LePlatt's Pond, Mortenson Ranch, and Neuromotiv, plus the studio's own site and SEO program.
- Built the studio's six-agent AI infrastructure on the Claude API for content, outreach, project management, and finance.
- Every engagement ends with the client able to run their own site.
